Quality | Safety | Consistency

Kuldeep Jain
M.D.
B.JAIN Group of Companies

Dear Doctors,

B.JAIN Group has been serving homeopathy for more than 50 years. It was started with a small publishing house in 1966 to serve passionate practitioners, ambitious students & admirers of homeopathy around the world. It publishes books & homoeopathic journals, conducts seminars and workshops for students & doctors to exchange their ideas and experiences and is committed to the promotion of Homeopathy across the globe.

After serving homeopathy in terms of printing, I was not contented as a large sector of Indian Homoeopaths still relied on medicines which were not manufactured in their own country. I strived to find the reason behind this. After having multiple conversations with a plethora of doctors, I came to a conclusion that there is a need for quality medicines in Homoeopathy.

To achieve this, we needed a dedicated team, appropriate infrastructure, best available raw material and transparency in production processes to carry out all the related procedures. This lead to the foundation of B.JAIN Pharmaceuticals in 2010. Today B.JAIN Pharmaceuticals is known for manufacturing one of the finest quality of homeopathic medicines across the world.

In 2010, B. Jain was the first Homoeopathic pharmaceutical company in Asia to invest for development and procurement of the most advanced and accurate Potentization machine from Europe, which makes potencies with highest precision. Our goal is to reach to the masses by maintaining quality and accuracy of product.

Quality of raw materials, processes and end products is strictly ensured at B. JAIN. We procure our raw materials from original sources of cultivation or from reliable vendors. All raw materials are tested against various parameters before their entry into the plant. Special emphasis is laid on cleanliness-maintaining ISO class 7 and class 8 environment, having cleanrooms with HEPA filters and HVAC system in each section, in house DM water plant and UV filtration with 24-hour circulation to ensure zero microbial growth are some of the steps taken for the same.

Our perseverance in quality manufacturing has bagged cGMP with the most updated requirements by International FDA. Our wide range of products that are available all over the globe includes Mother Tinctures, Liquid Dilutions, LM Potencies, Schuessler Salts-Biochemic & Biocombination Remedies, Trituration & 1x Tablets, Lactose, Globules, Specialty Products, Personal Care Products and Remedy Kits.

We express our sincere gratitude to valued patients and learned doctors in addition to dealers who perform a wonderful task in conveying our objectives to the lovers of Homoeopathy.

Service in Homoeopathy is our passion and we are proud to be a significant part of the flourishing Homoeopathic community.

CERTIFICATIONS

Certifications are a mark of acceptance and milestones achieved while treading on the path of Quality deliverance in any field. B. Jain Pharmaceuticals is proud to announce that we have successfully achieved GMP certifications from Indian regulatory.

B. Jain Pharmaceuticals is determined to take Indian Homoeopathy all across the globe with consistent hard work and adherence to quality deliverance.

cGMP CERTIFIED

Good Manufacturing Practice (GMP) is a term that is recognized worldwide for the control and management of manufacturing, testing and overall quality control of pharmaceutical products. GMP addresses all issues related to documentation, record keeping, personnel qualifications, sanitation, cleanliness, equipment verification, process validation, and complaint handling. GMP certification is a mark of sincerity in providing quality medicines and ensures that products are consistently produced under controlled environment according to quality standards. We are certified by Indian GMP as well as Canadian GMP for our manufacturing procedures. cGMP means that we follow the current & updated GMP guidelines.
